

Getting Started with Auto-Affiliate A.I.

Introduction

Congratulations on investing in the Auto-Affiliate A.!!

The model presented in this course is designed to **rapidly** position you to generate income with affiliate marketing offers **without** the usual need for complex setups and expensive services & tools.

I've documented everything inside of the main training videos, and you must watch those videos to get the big picture.

Nevertheless, below you will find the quick steps to getting up and running:

Quick Start Steps:

1. Study the course training.
2. Review all course materials and downloads.
3. Create your affiliate account(s)
4. Choose and study an affiliate offer to promote.
5. Get an affiliate link for the chosen offer.
6. Generate click magnets in GPT from keywords in offer sales letter.
7. Post click magnets to social media
8. Redirect clicks to your affiliate link

[Optional] Add a landing page and opt-in form in between the social media post and the affiliate link to gather the lead for future promotion.

Steps 4-8 are repeated for each offer you decide to promote.

Overview

Take one look at the WarriorPlus, JVzoo, or Clickbank marketplaces and we can see that there are many vendors who create products and full sales funnels.

These are offers and they need traffic!

If the offer converts on the traffic it receives, the vendor makes sales.

Real simple!

Since vendors need traffic, they offer an affiliate program so that third parties with lists or other traffic sources can promote that offer and earn a commission when a sale is made.

Quick Start Guide

You are that third-party!

Ergo - you are an affiliate.

Markets like Warrior Plus are designed to bring vendors and affiliates together, facilitating the sale and commission sharing.

All we must do, as affiliates, is pick the right product, make some click magnets that get an interested party clicking our affiliate link, and publish them on social media or other traffic sources.

Generating Click Magnets

If you are ever just scrolling through Instagram and see a pretty blonde in a bikini, then you've just spotted a click magnet.

Her click magnet is leveraging lust, thirst, and sex to get a click to the model's profile. If you were to follow that model, you will often find them selling something; cosmetics, fitness coaching, or an online profile of the model doing ...other things...

So, click magnets are content that attracts attention and get clicks.

The nature of that content is determined by the audience.

This is an emotional triggering; stopping the reader in his/her tracks and triggering the idea:

"I gotta see what this is about..."

The best way to do this is to pull on urgent problems, unique solutions, and recognition.

To stop the viewer from scrolling on social media, and invoke curiosity, we need to express benefits that we believe will get them to click.

Using the keywords on the sales page for our chosen offer, we can generate click magnets that trigger the click.

We do not need to sit here and engineer anything. The vendor has **already** come up with the exact verbiage and imagery to use.

Just **use the vendor's sales letter as inspiration** and don't get clever!

Quick Start Guide

With a ChatGPT4 account, just ask the AI to visit the sales page (you can get the sales page link from the offer details page) and provide you with ideas for bonuses and click magnets.

Use a prompt, such as:

I am working on a project to create simple social media ads to generate clicks for an affiliate product. Visit the following page (www.example.com/offer-letter) and recommend headlines, topics, and central concepts that I can use to post on social media to promote the product I provided in the link. Don't be clever or sound like a used-car salesman. Write in a professional tone but use natural language. Most of what I need will be short statements that express benefits and invoke curiosity.

Feeding this prompt into ChatGPT, using this course's offer letter, I got this:

- "Start Earning with AI: Your First Commission in Just 3 Hours!"
- "Unlock \$5,000 Weekly Earnings: No Ads, No Funnels, Just Results"
- "Work From Home Revolution: Earn with AI Automation"
- "Affiliate Marketing Simplified: \$17 for Lifetime Access"
- "Experience Financial Freedom: The Auto-Affiliate AI Advantage"
- "From Setup to Profit in 2 Hours: Discover How"
- "Maximize Earnings, Minimize Effort with Auto-Affiliate AI"

This gave us 7 concepts from which to build our posts.

You can mix and match them to create additional click magnet concepts, so really this 2-minute exercise gave us many posts; each with their own potential to generate clicks.

It is extremely helpful to know your market when making click magnets, however, if you know nothing about the market, its people, or its products, you can still do this!

That's because ChatGPT4 is making connections for us. All we have to do is give it what it needs.

To gain a better understanding of your market, study the most popular offers and sellers & you will understand why they stand out.

Quick Start Guide

In short, they follow trends and deliver benefits at a glance.

Once you have click magnets, you can start posting them. This will get you the traffic.

Just be sure to make **your affiliate** link the redirect if someone clicks on your click magnet.

Generating Images

Using OpenAI's DALL-E (a service of ChatGPT4), we can generate an image to accompany our posts with a prompt, such as:

Give me an image that is in the 1:1 ratio, 1024x1024, that illustrates "Work From Home Revolution: Earn with AI Automation." Please do not add text to the image.

I told it to give me a square image (1:1) in the size closest to Instagram's format (1080x1080), and use the text from the output GPT gave me earlier. DALL-E produced:

I wouldn't say this is a Picasso, but it is good enough to post.

That's the trick here: **speed...**

Speed of Implementation & Speed of Production

Just getting out a bunch of these in an afternoon can see you making sales immediately.

The other trick is **persistence...**

Never giving up, and constantly posting is key to getting early momentum.

A Quick Word on Traffic

The primary source of traffic for this method is social media where we post click magnets out there to generate clicks.

You can use other sources of traffic, such as solo ads, native ads, and even free or low-cost products in the marketplace.

If you want to learn how to post low-cost products to generate traffic and leads, then I highly recommend my course, Six Figure Side Hustle, which you can do by clicking below:

Using Schedulers

Many social media networks have post scheduling as a default feature.

Where you can see lots of gains is through syndication across multiple networks.

This is where commercial schedulers can be a gold mine.

You simply setup your click magnet post once, and the scheduler handles everything else.

Here is a list of schedules that you should consider using if a single platform's schedule feature does not meet your needs:

Frequently Asked Questions:

Here are some of the most frequently asked questions as they pertain to the Auto-Affiliate A.I.

Do I need a website?

No, you do not need a website, especially if you are not collecting leads.

Do I need an Auto Responder like Aweber?

No, you don't, with one caveat:

Building a lead list is a great way to print money. If you make the effort to post the click magnet, then a little more effort goes a long way to capturing that lead, so you can email them similar offers later.

Aweber gives you your first 500 contacts for free. So you can build a fresh list quickly, one that pays for everything you need, with very little extra effort.

As I said, this is optional, but it has BIG IMPACT if you chose to gather leads.

What else do I need to spend to make this work?

At its core, it costs nothing extra to leverage this method. You can always do this by reading sales letters and using the bullets as topics and headlines for your click magnets, then find royalty free images on Pixabay.com.

ChatGPT4 vastly simplifies this method, and requires a monthly subscription of \$20. This will be the best \$20 you will ever spend on any online tool ever. It will allow you to work faster, smarter, and get more click magnet posts out quickly. The end result will be revenue, which will pay for everything many times over.

If you were capturing leads, then you will need a vendor like Aweber.

Does this work in other countries?

YES – this will work in other countries and in other languages.

How do I get paid?

Offers you promote pay a commission when a sale is made through your affiliate link. Payment is made through the affiliate marketplace, such as WarriorPlus, which integrate through your payment accounts, like PayPal.

Will this ever get saturated?

Saturation is an impossibility. Fresh offers are published daily, and new buyers come into the market just as frequently. This method can never get stale because there will never be more people promoting offers than there are those selling them.

Do I need a landing page?

Only if you elect to collect leads. In which case, you put your autoresponder form on the landing page and send the clicks to that page. Once the visitor opts in, you redirect them to the offer with your affiliate link.

Is there software to download?

Auto-Affiliate A.I. uses third-party software and services. It is not an application that you download to your computer. Everything is done in a web browser. This course represents a process for using free and inexpensive tools to generate clicks to affiliate offers.

Do I need to create any bonuses?

No. You are just making click magnets and posting them. Adding something for the visitor download does, however, raise the value of your post. There was an erroneous video included on the member's page that was an artifact of the page creation process. So, I'm sorry for the confusion, if any, that it caused.

Do I need to create videos?

No, you can use just images. However, remember that video content is more engaging and thus it gets more clicks.

How much time do I need to put in?

Quick Start Guide

Let's say you have 5 hours a week to work on this project. Spend a week making posts and a week scheduling them with a syndicator service.

...then take 2 weeks off...

Or don't take 2 weeks off and go on a month-long vacation to Fiji next year, or buy stuff for your hobby, or buy the spouse something nice...

In all seriousness, what you get out is proportional to what you put in.

Students have reported working on this for three hours and getting results.

Remember: the popularity of topics, the quality of the offer, and the pricing, and volume of clicks you receive determine the results. There are factors that are also out of anybody's control, so the key to this, and most other businesses & side-hustles is to be persistent and make the tasks a routine.

Do I need a domain?

No. You only need a domain if you are hosting landing pages. This model works by sending clicks directly to an offer via your link. You can optionally put a landing page between this click and gather a lead if you want.

Do I need an email address?

So long as you're not gathering leads, you don't need an email address. If you do start building a list, then yes, you will need a domain and email address.

More Q/A will be added here as they come in through the support desk.

Finally, Don't Stop Learning...

The field of digital marketing is always evolving, and staying up-to-date is essential.

Invest in your education – attend webinars, take courses, read books and industry blogs. Know the products, the sellers, and the audiences...

YouTube has endless material on these topics, so dive in and absorb as much as you please.

The more you know, the more value you can offer.

Take The First Big Step

Starting a side-hustle as an affiliate marketer is extremely rewarding...

Just keep doing what you're supposed to be doing (see step list above) and you will grow this side hustle into a machine that generates serious income.
