Day 10: Launch and find affiliates

30 Day Action Plan: Intro

The following 30-day plan is a model for implementing the methodologies outlined in the main training over the course of the month.

The purpose of this plan is to give you more time to learn and build out your projects.

Unlike the 10-day plan, this tactic is broken down by weeks, allowing you flexibility to schedule tasks that best fit your availability.

It is important for me to point out that everyone is different, with unique work ethic, available time, skills, and abilities.

Be patient with yourself, but also be true. Progress over any time-frame is still progress.

See The Finish Line First

Your brain doesn't care if your experiences are **real** or **imagined**. (Dr. M. Maltz et al ~1960)

Envision what success looks like
and means to you:

Who else will benefit from your success and how?

What will you buy and do with success?

Where will you go on vacation?

Bigger house? Newer car?

What hobbies will you start?

What toys will you buy?

Who will you help?
